of the Sarajevo
Information Centre
on ICTY

Acknowledgments

Dear Madam,

On behalf of ourselves and the students of the International and European Law Research Club and the Investigation of International Crimes Research Club at the University of Rzeszów, we would like to express our sincere gratitude for professional organization of our visit to Sarajevo City Hall. Thanks to your commitment and attention to every detail, we were able not only to learn about the functioning of the institution, but also to better understand the issue of international crimes. The meetings and discussions held during the visit were very valuable experience for us and an inspiration for further work. Once again, thank you for your hospitality, openness, and high level of organization of the entire project.

Yours sincerely,
